

SPEEDLINER

WORLD'S TOUGHEST SPRAY LINER

www.speedlinergoldcoast.com.au

Introducing the new Speedliner **EPIC**

As we know Speedliner SL1000 is the World's toughest spray on coating. How well and how far it out performs it's competitors is legendary.

A new legend has arrived

SPEEDLINER EPIC

It comes with all the attributes of the Speedliner SL1000 but it is nearly twice as strong . It is colour fast, has maximum UV stability , incredible flexibility, an in creditably high abrasive wear factor and has extremely high tear strength. The new **EPIC** has set a new bench mark in performance.

It's tensile strength is up to 7500 (psi). The SL1000 is 4900 (psi) compared to it's nearest opposition which is 1800 (psi).

it's tear strength is up to 1450 (lbs-f/in). The SL1000 is (865 lbs-f/in) compared to it's nearest opposition which is (250 lbs-f/in).

The abrasive wear factor is 1000 % better than our own SL1000 which is in the top of it's field.

Where can **EPIC** be used. Every where you would use the SL1000.

From industrial, mining, auto industry to the marine and Military.

It utilises the same colour range as the SL1000 of 19 colours and unlimited custom colours. These performance figure are **EPIC**
